

Nanogene Technologies

Thank you for preparing a memo for Will Tompkins at Nanogene Technologies.

Business Analysis

First, Focus on the Nanogene business, leaving finance aside as much as possible.

- 1) Describe the business in which Nanogene operates. What kind of Key Performance Indicators (KPIs) might you recommend from an *operational* standpoint.
- 2) Describe the Org Chart, and discuss the Leadership, Operational and Technical strengths of the players. Do you agree with the proposed ownership and pay levels? Why or Why Not?
- 3) Why might Paige Miller be a good addition? What value might she add?

Financial Analysis

- 1) Develop a Cap Table based on how the company is currently structured. Include the funding, valuation and shares. (Use Exhibit 2 to support your work)
- 2) Build a Cap Table based on the expected hiring
- 3) Based on the case, what is the expected value per share for the Series A funding?
- 4) What is the Nanogene's implied Post Money Valuation, if the Series A successfully closes.

Analysis and Recommendation

- Should Nanogene restructure its current ownership and payscale? Evaluate the Cap Table and potential business milestone implications of your decision.
- Should Nanogene hire Paige Miller? Why or Why not?
- Based on the. Cap Tables that you have developed, and the Cap Table provided in Exhibit 2, what modifications do you recommend, why have you selected these, how might you implement them, and what are the outcomes that you anticipate.

Your Memo should be 3-5 pages, plus tables and exhibits. Please submit your Memo and corresponding Excel Sheet to canvas.
